The icon will be changed.

Description

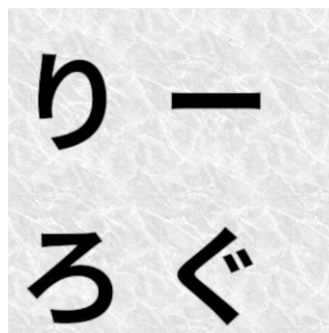

Overview of New Icon

The new icon, header, and OGP image are each based on the color white to create a cool impression.

The new icons, header, and OGP image all use Google's Noto Sans JP Bold font, which emphasizes the intellectual nature of the site.

The new header and OGP image have been changed to reflect the fact that the operator has graduated from high school, thus losing the title of high school student and gaining the new title of vocational school student.
